2642 ROMANA LARGE EXTENDING DINING TABLE

This large modern oak dining table is ideal for a large open plan kitchen dining space. Its statement features of smooth curved edges along the sides of the table top combines with the curves and chamfers of the legs to give an organic feel to the piece displaying ercol's skill and craft of working in solid oak. This dining table seats eight when closed and ten when extended. The table features a reciprocating mechanism – pull on one end to extend and the other end opens at the same time. The extension leaf is stored within the table as a butterfly mechanism – it is simply flipped open into place. The table is finished in a clear matt lacquer that protects the timber at the same time as displaying the natural beauty of the oak.
