7402 BUTTERFLY CHAIR

The iconic everyday Butterfly chair was launched in 1956. The Butterfly chair features a steam bent backrest and seat creating a distinctive dining chair which is as supportive as it is stylish. Along with traditional Windsor wedge and tenon joinery, a technique in which the chair's legs are extended through the seat and secured with a wedge. These joints are then sanded until they lie flush with the seat to create a strong and durable base, built to withstand the demands of daily life. Made from ash timber the chair is available in a selection of finishes that can complement any room. Also, now available for added comfort is the Butterfly chair with an upholstered seat, fabrics can be chosen from the ercol and Universal collections.
