

1393 BOSCO DISPLAY CABINET

This contemporary oak cabinet offers two separate storage sections. The large upper glass cabinet consists of two adjustable storage shelves, offering plentiful space for your glassware. At the base of the cabinet there is another ample sized cupboard divided vertically into two with each side having an adjustable storage shelf. Recessed handles, which are both wonderfully tactile and simply elegant, compliment each of the cupboard doors. The oak cabinet also features curved finger joint detailing, a signature feature of the Bosco design. This display cabinet, like all tall pieces of furniture should be fixed to the wall for stability, appropriate fixtures and fittings are provided.
