

1875A QUAKER DINING ARMCHAIR

This elegant designed Quaker armchair has clean lines and soft curved edges. The chair bow is steam bent from a single ash rail into a tight radius bend and then sanded and shaped to give its subtle and elegant profile. Traditional wedge joints, where the legs come through the seat, a wedge is inserted into a cut, before the leg stump is hand sanded flush with the seat, to create a lovely design detail and a very strong joint. This Quaker arm chair is finished in your choice of lacquer and paint colours that protects the timber and can complement your decor. You can also order a seat pad for this chair, fabrics are from the ercol collection.
