

4241 ELLA MEDIUM EXTENDING DINING TABLE

The Ella medium dining table has the same hexagonal shaped leg profile with chamfered corners as the rest of the Ella collection. Seating 6-8, for ease of use and practicality the leaf is stored within the table and extends from the end, meaning the table legs remain at the corners of the table both when closed and extended, maximising space and comfort for diners. The Ella collection is finished in clear matt lacquer to protect the surface and show off the beauty of the natural grain. Available online and instore exclusively at Furniture Village.
