

# 4260 VERSO SMALL SIDEBOARD

The small sideboard was the first cabinet designed in the collection. The design was inspired by a single flowing line in a sketch of the cabinet which triggered the idea for the distinctive rounded corners that form the cabinet drawer and door handles, these have become the key identity of Verso. This contemporary design crafted in solid ash, offers deep practical storage, with a cupboard that has an adjustable shelf and two deep and robust drawers. The sideboard is available in our standard ash finishes which are highlighted by the door pulls in contrasting black steel on lighter finishes and brushed brass on dark finishes.

## TECHNICAL SPECIFICATIONS
