

SYL-0002 SYLVA BOOKCASE

This Sylva compact bookcase allows you to appreciate carefully considered design, fluid curves and expert craftsmanship. Its refined design provided practical challenges for the students and ensured attention to detail throughout. Three sturdy shelves with one adjustable, provide optional storage, while the compact size allows it to be used in a variety of rooms. A practical top edge allows items to be leaned securely while also helping prevent items from rolling off. Produced in batches by students at Sylva Wood School, students gained valuable experience in professional practice and the standards of quality craftsmanship. Produced in low volumes by students of the Sylva Wood School, the bookcase is crafted from Grown in Britain (GiB) certified ash, celebrating the timber’s natural spectrum of colour, from pale white through to olive tones. It is finished in a protective white pigment oil that enhances durability while allowing the beauty of the ash to remain visible. Owing to the natural character of GiB ash, each piece is entirely individual, displaying its own distinctive grain patterns and tonal variations — creating a truly unique piece of furniture. There are only 5 limited edition bookcases available.

TECHNICAL SPECIFICATIONS

CONSTRUCTION

Solid Ash
