

SYL-0001 SYLVA BEDSIDE CABINET

The Sylva bedside cabinet combines practical design with a smooth tactile finish. Featuring a single drawer and a functional galleried top, offering both storage and security for everyday items. Its minimalist aesthetic brings a sense of calm and considered simplicity to the bedroom. Produced in batches by students at Sylva Wood School, students gained valuable experience in professional practice and the standards of quality craftsmanship. Made from Grown in Britain (GiB) certified British ash, the cabinet celebrates the timber’s natural variation in tone, from pale white through to olive hues. It is finished in a protective white pigment oil that protects the wood while allowing the distinctive grain and character of the ash to remain visible. Designed to complement the Sylva bookcase, the bedside cabinet pairs effortlessly within the same room. No two bedside cabinets are the same due to the natural material they're made from. Each cabinet features its own individual grain markings and colours. Creating a definite statement piece. There are only 11 limited edition bedside cabinets available.
