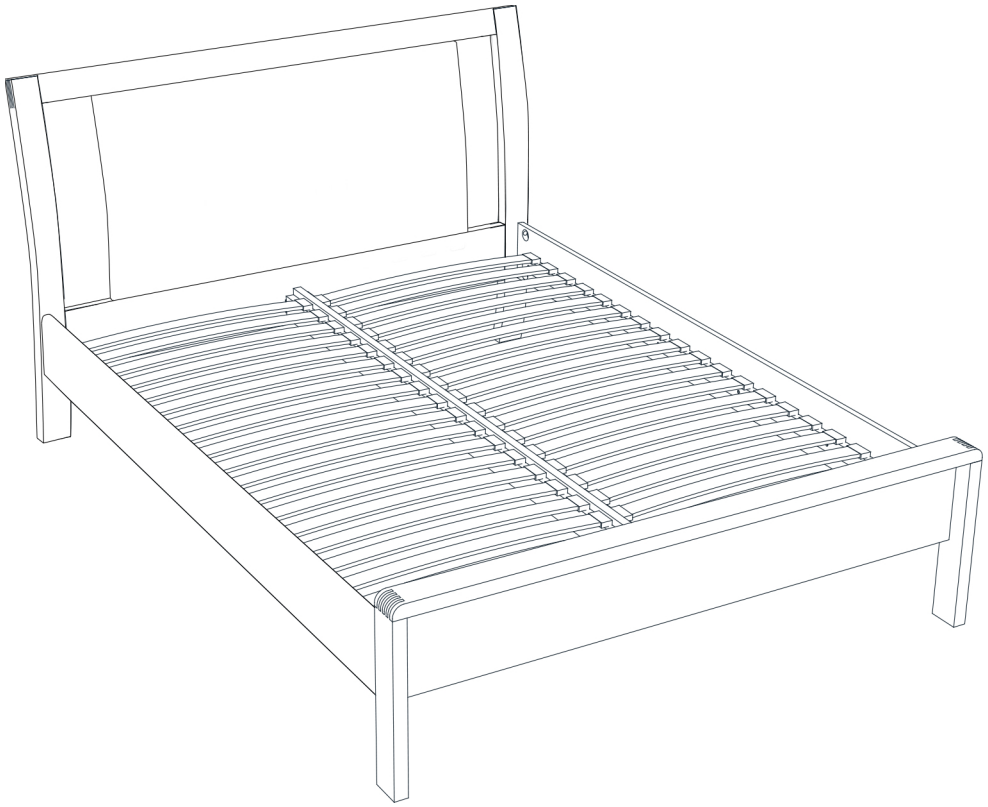
1324 &1325 BOSCO
UPHOLSTERED HEADBOARD BEDFRAME



Thank you for purchasing this Bosco upholstered headboard bedframe. Please ensure instructions are read in full before attempting to assemble this product.

Pre-assembly preparation

This is a two person operation

Items you will need

This product is heavy, it should be assembled as near as possible to the point of use. Take care when lifting to avoid personal injury and (or) damage to the product.

The fittings pack contains small items which should be KEPT AWAY FROM YOUNG CHILDREN.

Installation should be carried out exactly according to these instructions, otherwise a safety risk can occur if incorrectly installed. Cabinets and shelving over 600mm high can be unstable and should be supported until fixed to the wall.

Read this leaflet in full before commencing assembly.

Fittings and parts checklist

A	1 x headboard	
B	1 x footboard	
C	2 x side rails	
D	1 x centre rail	
E	32 x slats double bed 34 x slats king size	
F	64 x ends for slats (double) 68 x ends for slats (king)	

G	8 x threads	
H	8 x half moon washer	
I	1 x spanner	
J	2 x central brackets	K	2 x washers	
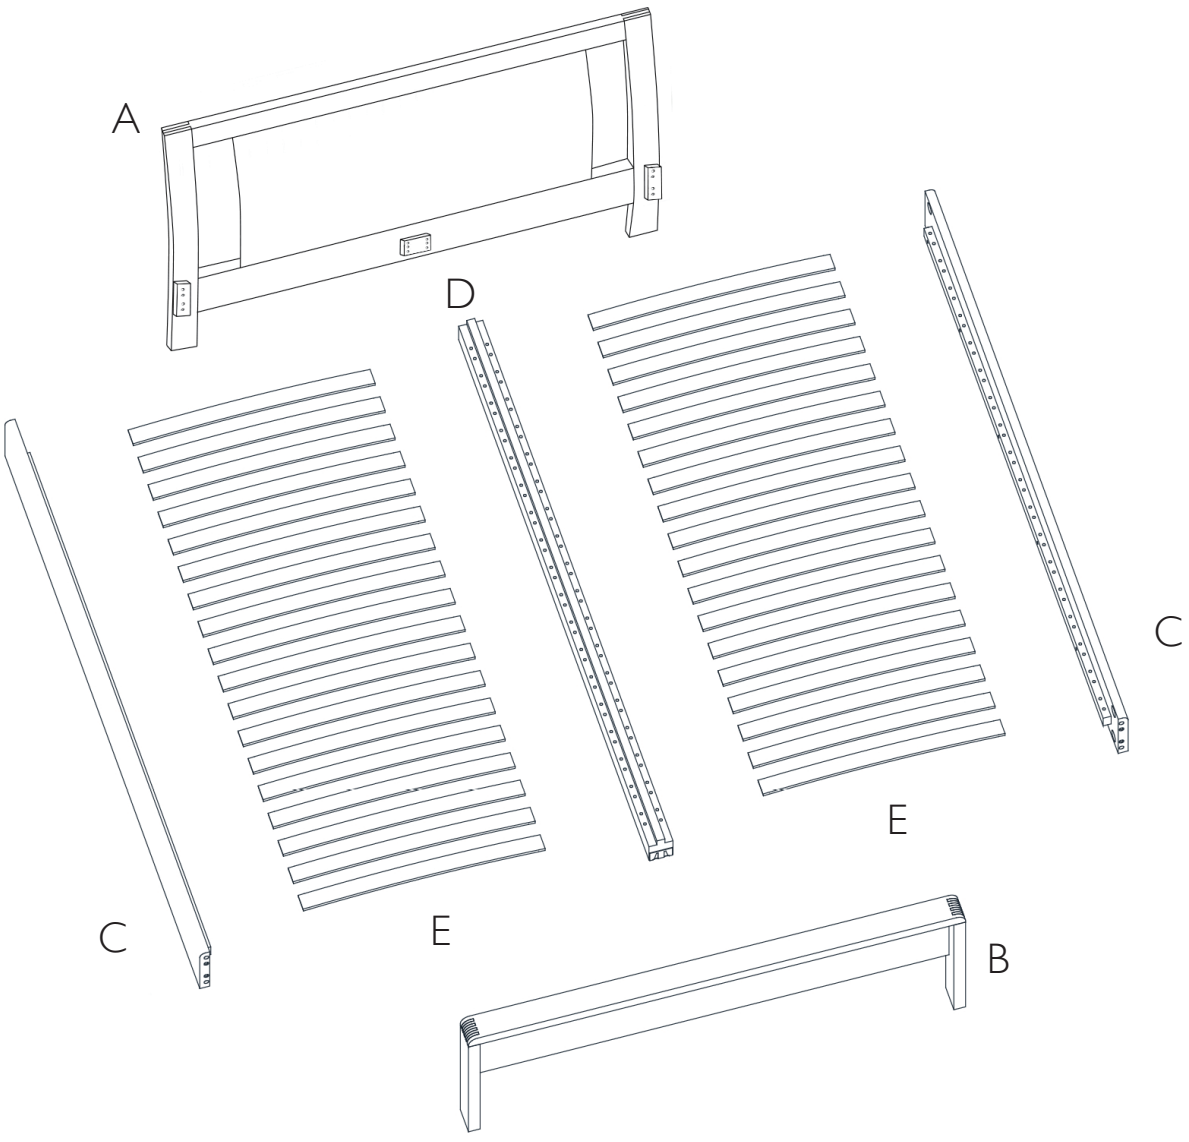
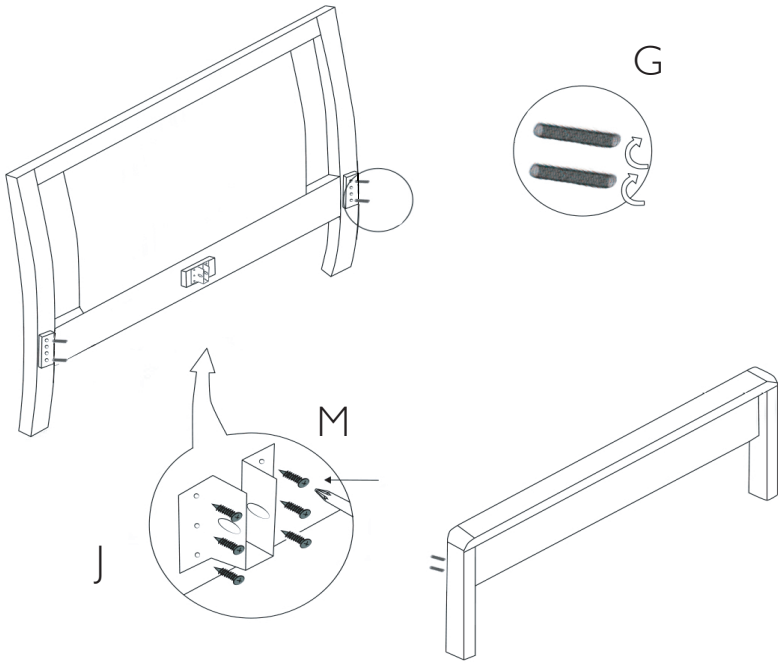
L	2 x nuts and bolts	
M	12 x 25mm screws	

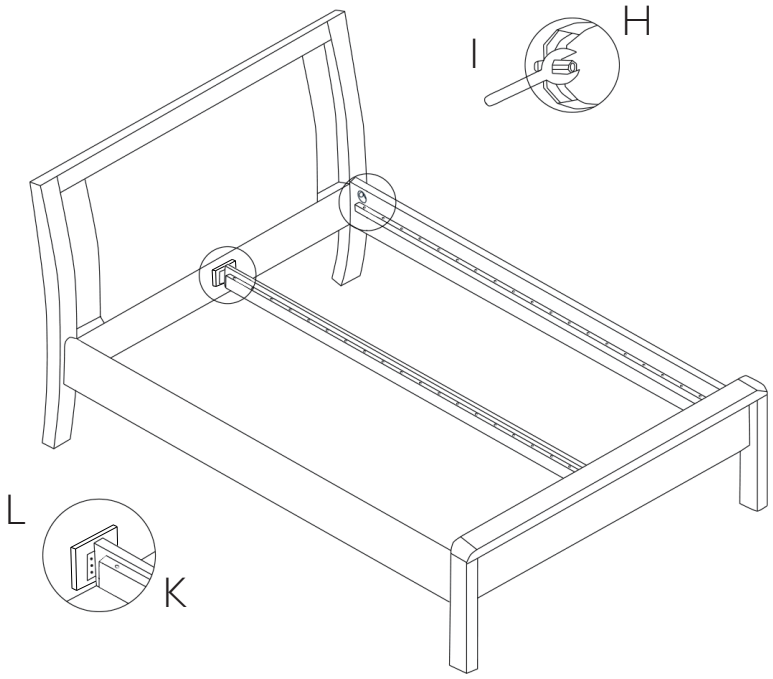


Step by step assembly instructions

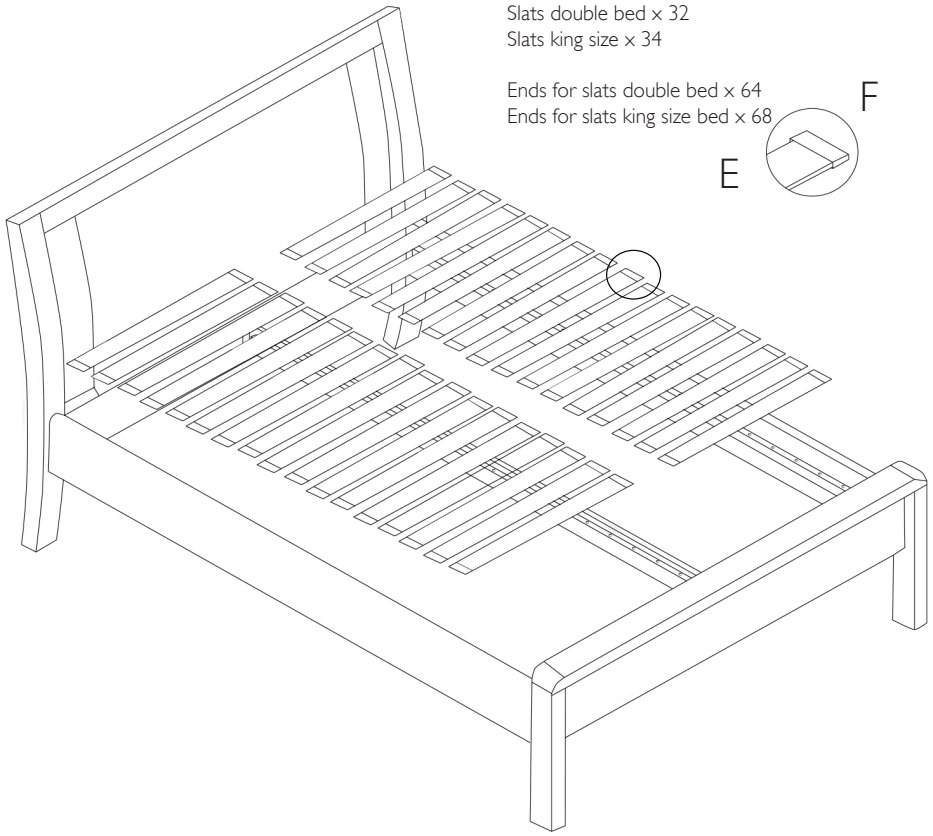
1. Push the threads (G) into the headboard and the footboard as shown below. Tighten the threads by hand, ensuring that there is approximately half of the thread still showing. Using the 12 x 25mm screws (M), attach the two brackets (J) onto the headboard and the footboard using the pre-drilled holes, tighten with a phillips screwdriver.

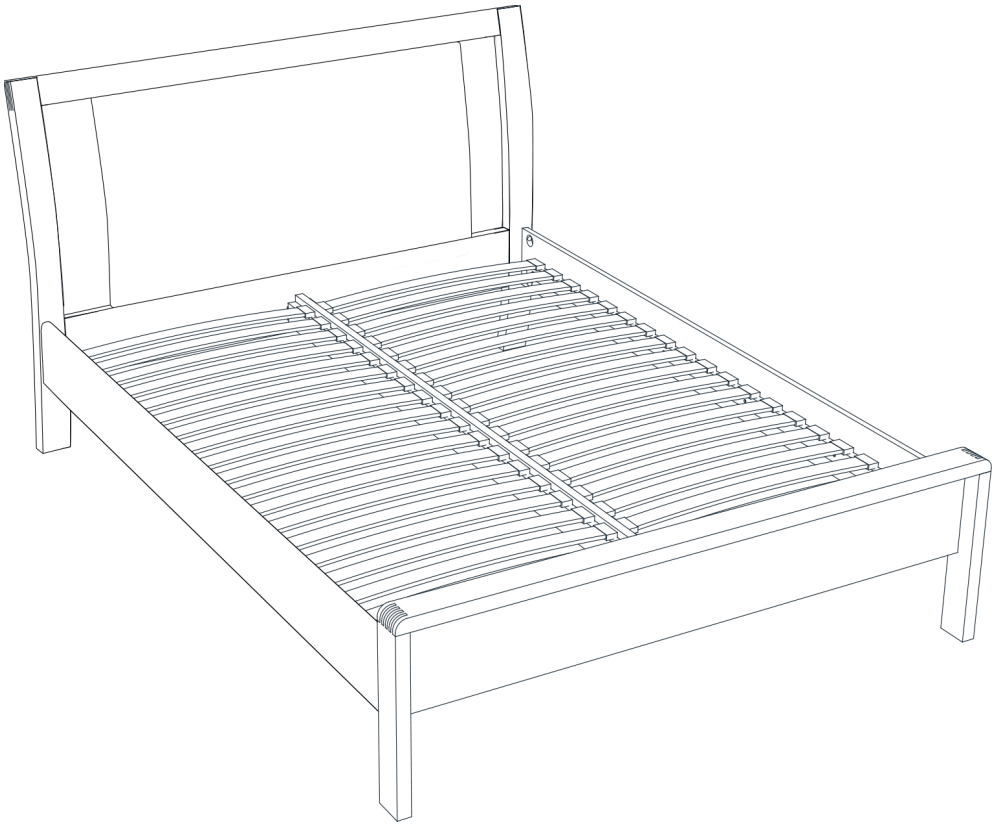


2. Ensure the holes in the side rails (C) are facing upwards, and you have the left and right rails (see page 2) on the correct sides. With another person to hold the siderail, locate these side rails onto the protruding threads on the headboard and footboard. As you do this, slide a half moon washer (H) onto the thread when it comes through into the circular hole in the side of the rail, then screw on one of the 8 nuts finger-tight only. Repeat with the other 3 corners. When all four corners are in place, fully tighten with the spanner (I). Making sure the holes in the centre rail are facing upwards, put the centre rail (D) into the two brackets (J). Secure it in place using the 2 x nuts and 45mm bolts (L), and the 2 washers (K).



3. Push the plastic cap (F) onto the end of each slat (E). With the peg facing downwards push the slat into the pre-drilled holes as shown below. Repeat for each of the slats. The bed is then fully assembled.





Wood Furniture

Wood displays different grain patterns depending on which way it is cut - for example, the 'medullary ray' which can appear on oak furniture is a mark of good quality timber - these are characteristics of the natural beauty of the wood. All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

How to care for your wood furniture

Furniture with a hard lacquer, wax polish or painted surface should be dusted with a dry cloth. Spillages should be wiped up as soon as possible. Spray polishes should be avoided as they can contain silicones which may spoil the furniture's surface by building up over time. Use of cleaning materials containing abrasive compounds, acidic or caustic reagents and any bleaches containing oxidising reagents should be avoided as prolonged use may damage the lacquer surface. If sticky marks occur on the surface they can be removed with a dilute solution of warm soapy water. The area should be rubbed lightly and then completely dried immediately afterwards, before replacing any mats etc. Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage, such as warping.

Safety Instructions

Never drag furniture when moving it, always lift it. Take care when handling or moving the furniture as careless handling may cause damage or injury. No liability will be accepted for damage or injury caused by incorrectly installed furniture.
